Summary

Motivated Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Gained hands-on experience by building responsive and user-friendly web interfaces through personal and academic projects. Also have basic knowledge of backend development using PHP. Actively looking to contribute to real-world projects, collaborate with experienced developers.

Experience

7Span   January 2025 To June 2025
Frontend Developer   Ahmedabad, India
⦿ https://7span.com/

- During my internship, I learned how to build websites using **HTML**, **CSS**, **TailwindCSS**, **JavaScript**, and **React.js**. I also used **ShadCN UI components** to create clean and reusable designs. I got hands-on experience in making websites responsive and user-friendly. I also learned how to **host live projects using Vercel**.

- As part of my internship, I built a project called **Project Case Study Builder** using **React.js** and **ShadCN**, which helps users create and display case studies in a simple and professional way.

Devoq Design   July 2025 To Present
React.js developer   Ahmedabad, India
⦿ https://devoqdesign.com/

- At Devoq Design, I gained practical experience in modern frontend development. I worked with HTML, CSS, Tailwind CSS, JavaScript, TypeScript, and React.js to build responsive and interactive websites.

- I contributed to various projects, including **Jatin V Wamja** and **Advizo**, where I used React.js and JavaScript to create professional, responsive, and user-friendly applications.

AudioBox

AudioBox is a Spotify Clone

- This is a college project, which is music streaming Web application designed to replicate the features and functionalities of the Popular music service using Html, CSS, PHP, and JavaScript.

EasyStay

A simple platform to browse and manage hotel stays efficiently.

- This is a static hotel management web application inspired by Airbnb, featuring property listings, host dashboards, and user-friendly navigation. It showcases a clean, responsive design with dynamic UI components and organized state management.

Case Study Builder Project

A tool to create and organize case studies with dynamic content.

- The Case Study Builder helps users create and organize case studies by adding project details and keywords. It's designed to be simple and user-friendly, making the process faster and clearer.

Jatin V Wamja

Creative and functional architectural designs by Jatin V. Wamja.

- The **Jatin V. Wamja Architects Portfolio** presents a collection of creative and practical architectural designs, including homes, offices, and modern spaces. It focuses on combining style with functionality while bringing fresh ideas to every project. The portfolio highlights the unique approach and skills of Jatin V. Wamja, making it a clear and professional way to share work and vision with clients.

Advizo

Unlock expert insights and connect with top professionals worldwide.

- **Advizo** is a platform that helps users unlock expert insights and connect with top professionals worldwide. It bridges the gap between knowledge seekers and industry experts, providing guidance, learning, and opportunities for growth.
